THE SMALLPOX PROBLEM

Prince George County Authorities Take Energetic Action.

laryland State Board of Health Strangely Indifferent Regarding Conditions at Hyattsville-Local Officials May Declare Quarantine. Other Interesting District Affairs.

H. C. McLean, the Acting Health Offier, today received a reply from Dr. John C. Fulton, Secretary to the Maryland State Board of Health, to his letter of Maryland authorities in connection with mallpox cases in Hyattsville and College Park, Md. Dr. Fulion wrote that there were four cases of smallpox at College Park. His letter was dated November 9, and he said that up to that time there had been no action, no official care of the cases, no isolation of suspects, and no quarantining of premises where the disease existed. This is the only official communication the District Health Department has had with the Maryland State Board of Health, and the Health Department does not regard it as

From other sources it has been learned by the Health Department that Dr. L. A. Griffith, physician to the Board of Health of Prince George county, was in Hyattsville yesterday and took measures to look after the smallpox cases. He visited them all, eight in number, and ordered a strict quarantine of all the premises where the patients are ill, and, it is said, made arpatients are ill, and, it is said, made arrangements with a local physician to take care of the patients. While at Hyattsville Dr. Griffith stated that in case there were other attacks he would secure a cottage at Lakeland and move all the patients there and have them cared for by skilled physicians and nurses. Dr. Griffith further stated that the patients were doing well, and that he saw no reason why the disease should not be confined within its present should not be confined within its present

Dr. G. A. Richardson, of Hyattsville, is acting in conjunction with the State Board of Health and in behalf of Hyattsville. He of reacts and in beam of right states and that he would take steps independently of the State Board, if that body did not take hold of the matter in earnest

has said that he would take steps independently of the State Board, if that body did not take hold of the matter in earnest and at once.

The District Health Office learned yesterday that two men in Washington, one an insurance broker and one employed in one of the departments, were residing on the farm at College Park where four of the smallpox cases are, and were going back and forth every day. They were visited yesterday by inspectors of the Health Department and told that they must romain at home until the danger from co 'anton was passed. They were informed 'hat' they were found in the District they work to remain out of the city for a few days.

While a little anxious over the outcome of the negligence of the Maryland official relative to the presence of the disease at Hyattsville, the Health Department is on the watch, and everything will be done on this side of the District line to keep out the disease, even if it becomes necessary to declare a quarantine against the infected territory. The Inspectors of the Health Department are on the track of others who reside in College Park and vicinity, and they also will be warned that they must not visit the city until the danger is over. The Health Officer, while he is authorized by law to stop all communication between Washington and the infected territory, hesitates to take that step unless it is found to be absolutely necessary. It is thought that with the vigorous action which has rew been taken the malady will be circumscribed and finally stamped out without resort to extreme measures from this end of the line.

The Communication from B. F. Gilkerson

The Commissioners have just received a communication from B. F. Gilkerson Secretary of the League of American Municipalities, inviting them to send delegates to the annual meeting of the league to be held in Charleston, S. C., December 12 to 15, inclusive.

The cities of Denver, Colo., Fargo,
D., New Haven, Conn., New Orleans,
a., New Bedford, Mass., Charleston,
C., Columbus, Ohio, and New York
ity are represented in the list of offi-

At its annual meetings the league lis-At its annual meetings the league listens to specially prepared papers on municipal subjects and a general discussion of the same is had. The proceedings are afterward published, and form a permanent contribution to the literature of municipal government. The league also maintains a bureau of information for the benefit of the members.

It is understood that the Commissioners will appoint one or more delegates to represent the District Government at this meeting.

this meeting.

The new truck house in Georgetown, on S Street, between Thirty-fourth and Thirty-fifth Streets northwest, is now completed and will be formally occupied by Truck Company E, at 20 clock on Monday, November 12. This is one of the additional fire companies provided for in the act of Congress, approved Merch 3, 1898. Owing to the increase of the cost of briding material some trouble was experienced in securing a bid for Truck House E within the appropriation set apart for its building and equipment, the erection of the structure was not begun until last March. The men composing the new company

The men composing the new company are: A. J. Sullivan, foreman; A. J. Mosare: A. J. Sullivan, foreman; A. J. Mosheuval, tillerman and assistant foreman; E. W. Lowe, hostler, and James Childs, C. Thomas, J. S. Trodden, B. Gregory, E. J. Decker, S. I. Hughes, J. McCarthy, C. E. Shaffer, and J. Mowatt. These men were provided for in the appropriation bill approved June 6, 1900, and were appointed last July. They have been

Charles Gerber and others, residents of Southwest Washington, have signed a petition to the Commissioners that action be taken to prevent the reopening of the planing mill owned by Joseph Smith in the rear of N Street, between Union and Sixth Streets southwest. The cause assigned for the request is that the smoke created by the burning of sawdust and shavings is a great analysis and shavings is a great annoyance and nuisance to the neigh-

The petitioners say that living in the houses near the mill is a burden, and they assert that the smoke is not only a menace to the health of the neighborhood, but that

clothing, bedding, etc., are injured by the smoke, and that the interiors of their houses are practically ruined by it.

H. C. McLean, the Acting Health Officer. in reporting upon the petition assures the Commissioners that should the planing mill in question resume contrating his description. Commissioners that should the planing mill in question resume operations, his department will keep the smoke stack under observation and take such steps as conditions may warrant for the abatement of the nuisance referred to, if found to exist. Mr. McLean states that the request of the petitioners that steps be taken to prevent the opening of the planing mill is a matter over which his department has no power or jurisdiction, as it cannot anticipate a nuisance.

The report of the Health Office was yes-terday approved by the Commissioners and

After you have tasted Heurich's you will always drink Maerzen, Senate, or Lager. 'Phone 634, Ar lington Bottling Co., for a case.

the petitioners will be informed in accord

Andrew B. Duvall, the Attorney for the yesterday his opinion upon the application of R. C. Baughman for permission to ex-tend railroad siding now in use on square 711 from lot 52 to lot 102. The Attorney

"The proposed extension involves the laying of tracks on a public parking in First Street east and across Patterson Street. The latter street was dedicated to the public in the subdivision of square 711 November 20, 1886. The right to use the streets of the city of Washington for any other surgess than the ordinary use of other purpose than the ordinary use of streets, the Supreme Court has said, should proceed from Congress.

"I am of the opinion that the Commissioners are without authority to grant the

desired permit and that the permit applied for should not be granted."

The committee appointed some days ago to pass upon the plans submitted by architects for a typical eight-room school building, capable of being enlarged into a twelverocan building, have reported to the Commissioners that thirteen architects submitted plans. They also say that five designs are recommended for adoption.

The committee also recommended that Architects Waddy B. Wood, Marsh & Peter, Appleton P. Clark, C. A. Didden, and Brauns & Sill be authorized to prepare plans for one twelve-room and four eight-room school buildings.

Commissioner H. B. F. Macfarland has had made a fine silk flag which he will present to one of the fire companies of the District on the occasion of the annual parade, November 15. As the line forms the company which is to receive the flag by special order of the Chief Engineer will take its place at the head of the line and at that time the presentation will take place. place.

In order to test the fitness of the com-

pany for this distinction a special commit-tee was appointed the other day to in-spect the several companies of the Dis-trict at their houses, without notice and without the men knowing the object of the visit of the committee. The commit-tee was composed of ex-Commissioner-John P. Wight, ex-Commissioner John W. Douglass, and Meyer Cohen, President of the Board of Underwriters. The commit-tee was charged to inspect the appearance of the men, of the horses, of the apparatus, of the houses and the records of the companies relative to cases of discipline during the last fiscal year. The commit-tee visited the engine and truck houses on Thursday and Friday, making in each case an unannounced call. In one case they arrived just as the company had received an alarm and were dashing off to the fire. In another case the company was

THE Y. M. C. A. LYCEUM

Methods of Conducting Presidential Elections to Be Discussed. The majorities in some States, com-

cials of the league, and the majority of pared with the number of electoral votes American cities are represented in its resulting therefrom, offer reason for resulting therefrom, offer reason thought, whether the Electoral College method might not profitably be replaced by the popular vote method of electing the President. The Lyceum at the Y. M. C. A., of which Mr L. E. Phillips is president, will consider this subject tonight, The Lyceum meetings are open to gen-tlemen visitors and the visitors are given opportunity to speak in the general de bate, after the specially appointed speakers have concluded. The discussions have been very interesting thus far and it is hoped that the attendance will continue grow. For next week the subject is: "Resolved, that the social system pro-posed by Bellamy in 'Looking Backward' and 'Equality' is feasible and desirable.' The Lyceum meets every Saturday at 8 p. m., 1732 G Street northwest,

POLICE WILL BE GENEROUS.

Further Aid May Be Given to Gal-

veston Sufferers. Major Richard Sylvester has received a communication from the National Association of Chiefs of Police, of which he is a member, asking suggestions from him concerning additional aid to be rendered the police storm sufferers at Galveston. It is shown that forty-one members of the Galveston force lost some member of their family or sustained property loss, the total of which amounted to \$57,210. The Washington department has already contributed \$350 toward relieving their fellow-officers, but it is likely that some further action will be taken.

Funeral of Policeman Ward. Funeral services over the remains of Policeman Charles Ward, for five years a member of the force, and attached to the Fifth precinct station, will be held at the late home of the deceased, 504 Fourth Street southeast, tomorrow morning at 8 o'clock. Interment will be at Chesapeake Beach, Md., where Mr. Ward was born and reared. A detail of policemen has been ordered to attend the funeral. His wife and one child survive the dead officer.

The following deaths for twenty-four hours were reported at the Health Department up to noon yesterday: Benjamin W. Blanchard, 73 years; Mary Mahoney, 62 years; Sarah Draper, 69 years; Alice Mereer, 39 years; Tess Brown, 36 years; Oliver De Horst, 27 years; Alice M. Fletcher, 25 years; Mary L. Grant, 7 years; Trelion Lawson, 4 years; Raymond West, 1 year; Mary E. Bundy, 8 months; Alexander Logan, 8 days.

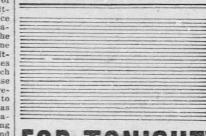

It has happened

More than once that a child has been earried off by an eagle. When such a thing does happen the press rings with the story. There's not a line given by the press to the babies carried off daily by disease. It isn't the fact of the child being taken away that is startling or interesting, it's only when the method of taking off is novel that it excites interest. How many children die who might have many children die who might have been saved if the mother who bore them had been able to give them strength and vitality. Dr. Pierce's Favorite Prescription makes healthy mothers and healthy mothers have healthy children, strong enough to resist disease if they are attacked.

Mrs. Axel Kjer, of Gordonville, Cape Girardeau Co., Mo., writes: "When I look at my little boy I feel it my duty to write to you. This is my fifth child and the only one who came to maturity: the others having died from lack of nourishment—so the doctor said. This time I just though! I would try your 'Prescription.' I took nine bottles and to my surprise it carried me through and gave us as fine a little boy as ever was. Weighed ten and one-half pounds. He is now five months old, has never been sick a day, and is so strong that everybody who

Dr. Pierce's Pleasant Pellets keep the bowels healthy and regular.
